FULL TIME POSITION: Town of Hurley Code Enforcement Office

A full-time position is available for Municipal Code Officer/Building Inspector I that includes Storm Water Management and administering the MS-4 program.

The work includes the ability to read and understand municipal codes and regulations, to read and understand site plans and erosion/sediment control plans, perform field inspections, handle complaints, keep detailed records, interact with land owners, business owners, agency officials and residents, and to file the mandated interim and year end storm water reports. Good oral and written communication skills are required as well as computer literacy and the ability to work in a team-oriented environment. It is a civil service position in the competitive class that will require taking and passing the examination.

The position is for 40 hours per week. Applicants must possess New York State Code Enforcement Certification. Trade experience and two years code enforcement experience preferred. Clean record and driving license required.

Benefits include paid time off, NYSLRS, deferred compensation and health insurance.

Resumes should be emailed to the Supervisor's office: supervisorsec@townofhurley.org
